

CASE STUDY

BIAS Corporation Helps FedEx Move Datacenter to OCI Using RackWare

1. BIAS Corporation is a global systems integrator specializing on the Oracle platform for both commercial and public sector clients.
2. BIAS was the 2019 North America & Global Oracle Partner of the year for Oracle Cloud Infrastructure (OCI) and 7X Excellence Award Winner.

PROBLEM

1. FedEx has 5 to 7 datacenters that they are looking to move to the cloud over the next couple years. Their first datacenter has over 500 servers.
2. They don't have a lot of cloud experience and need help with migrating the workloads in a timely fashion without introducing a lot of human errors.
3. Many of their workloads are very complex with multiple volumes.
4. Their requirement was to keep IP addresses the same.

RESULT

1. In the first 2 weeks, BIAS migrated 50 servers and expect that rate to grow and exceeding their migration timeline.

BIAS

Founded in 2000, BIAS is a leading Oracle Platinum Partner and IT services company with dedicated solution experts around the world. BIAS delivers innovative IT solutions, leveraging Oracle technologies, for some of the world's leading companies and public sector organizations.

RackWare provides an intelligent highly automated Hybrid Cloud Management Platform that extends across physical and virtual environments. It provides greater availability and flexibility for enterprise IT users, and reduced costs for enterprise IT providers. RackWare customers realize a cost savings of 40 to 50 percent, a reduction in time and resources by 20:1, while getting the highest performance and availability out of their cloud. RackWare is a well-established private company supporting customers from the Fortune 500 and large public agencies, around the globe.
