

## CASE STUDY

### Centroid Helps HID Global Move VMware to OCI Using RackWare

- HID Global digital identity solutions provide millions of people convenient access and tracking to physical and digital places and things. Over 2 billion things are connected through HID technology.
- Centroid is a services and technology company that provides Oracle enterprise workload consulting and managed services. For 20-plus years Centroid has helped clients modernize, transform, and grow their business.

### PROBLEM

1. HID had 100 servers that needed to be migrated.
2. Numerous front office applications, including the mission critical help desk apps, and Jira.
3. This includes numerous infrastructure elements such as Active Directory and DNS servers.
4. Several important servers were running Windows 2019.

### RESULT

1. Deployed RMMs newly introduced support for Windows 2019.
2. Migrated 100 servers to OCI.
3. Verified operation of all apps and infrastructure.

At Centroid they built a team of over 200 people with the talent and experience to help clients take advantage of the latest Oracle cloud applications and technologies. Centroid has been recognized as Oracle's North American Partner of the Year for Engineered Systems, Oracle Technology, and Infrastructure-as-a-Service over the past 5 years.

RackWare provides an intelligent highly automated Hybrid Cloud Management Platform that extends across physical and virtual environments. It provides greater availability and flexibility for enterprise IT users, and reduced costs for enterprise IT providers. RackWare customers realize a cost savings of 40 to 50 percent, a reduction in time and resources by 20:1, while getting the highest performance and availability out of their cloud. RackWare is a well-established private company supporting customers from the Fortune 500 and large public agencies, around the globe.
